

Walking sticks

Luxury Collection

Made in Italy

Questo catalogo nasce dal desiderio di esibire ogni singolo pezzo che la Walking Sticks ha sviluppato nel corso di un trentennio mediante un attento ed accurato lavoro di ricerca. Importante per ampiezza e ricchezza di esempi, la nostra collezione di bastoni da passeggio è in grado di soddisfare un collezionismo oggi in continua ascesa, gratificando al tempo stesso anche chi fa del proprio bastone da passeggio un veicolo di prestigio e comunicazione. Le impugnature a pomolo, pennacchio, uncino, gruccia, e molte altre ancora, sono sovente presenti con decorazioni figurate che traggono i propri riferimenti nell'iconografia storica dove, nel corso dei secoli, si sono viste nei bastoni alcune delle più belle espressioni artistiche del proprio tempo. I bastoni Walking Sticks sono, oggi come allora, impreziositi dalla ricchezza dei decori e dalla varietà dei modelli e delle materie prime impiegate. Swarovski ed argenti si alternano a porcellane, resine, legni, ed altri materiali.

This catalogue was inspired by the desire to show every piece that Walking Sticks has created in these 30 years through a careful and accurate research. Important for its vastity and the richness of examples, our collection of sticks is able to satisfy today's renewed interest in collection gratifying who uses the walking stick as a symbol of prestige and communication. The handles made as knob, hook, plume or crutch, and many others too, are often made with decorations inspired by historical iconography. Over the past centuries walking sticks have often embodied some of the most beautiful artistic expressions of time. Today, as in the past, our walking sticks are made precious through the use of rich decorations and the quality of the raw materials used. Swarovski and silver are used along with porcelain, resins, wood and other materials.
