Il vetro,
la sua anima:
un POTENZIALE
infinito

The glass, its aim: an infinite potential

Yalos è sinonimo di una tradizione millenaria,
QUELLA DEL VETRO DI MURANO, con la sua
storia fatta di conoscenze, capacità e segreti
tramandati nel tempo. L'azienda, nata dall'impulso
manageriale di Guido e Diego Ferro, è in grado di
produrre OGGETTI UNICI che sono il frutto del
connubio tra le sofisticate tecniche dei maestri vetrai
e lo stile di alcuni tra i più noti designers italiani
e stranieri. Oggi Yalos rappresenta una realtà
esclusiva in grado di proporre CREAZIONI
UNICHE DI STILE, ARREDO E DESIGN per la
casa contemporanea dove il vetro è l'indiscusso
PROTAGONISTA.

Yalos is synonymus of a millenary tradition Murano glass, with its history made of knowledges, capabilities and secrets handed down during the centuries. The company was born by the managerial skills of Guido and Diego Ferro and it is able to produce unique items which are the result between the sophisticated techniques of glass masters and the style of famous Italian and foreign designers. Nowadays Yalos represents an exclusive reality which is able to propose stylish and unique creations, furniture and design for contemporary homes where the glass is the undisputed protagonist.

Custodi di uno spirito MILLENARIO

Guardians of thousand-year old spirit

Guido Ferro, nato nel 1942, sin da giovanissimo studia e sperimenta le potenzialità delle innumerevoli miscele minerali diventando uno dei MAGGIORI ESPERTI DEGLI IMPASTI VETROSI.

Ha ricoperto la carica di Presidente degli Industriali del Vetro e del Consorzio Vetroacquisti.

Diego Ferro, figlio d'arte, nasce nel 1965 e cresce formandosi nell'azienda di famiglia approfondendo tutti i processi creativi e produttivi legati all'arte del vetro. Lancia collaborazioni con progettisti esterni, aprendo così nuovi orizzonti alle possibilità offerte dal settore. Amministratore delegato di Yalos, cura personalmente PROGETTI DI DESIGN e firma le sue collezioni dallo stile fresco e creativo.

Guido Ferro was born in 1942. From an early age he studied and experimented the potential of countless mineral mixtures, becoming one of the most expert on glass blends. He was the chairman of the glass-manufacturers association and Vetroacquisti Consortium.

Diego Ferro was born in 1965 into an artistic family and he grew within the family's factory, learning all the creative and productive processes of the glass art. He starts collaboration with external designers, giving new opportunities to the glass sector. He is the CEO of Yalos and the responsible of his design projects and collections with a fresh and youthful style.

1298: Murano
accoglie l'arte
del vetro.

*Yalos continua
a tramandarla*

Big

Solo le antiche tecniche dei vetrai muranesi avrebbero potuto dare vita a Big, alla sua plasticità interpretata su forme non convenzionali. Un'emozione delicata dalla leggerezza che ricorda il tessuto, disponibile in alcune tra le finiture più pregevoli.

Only the ancient techniques of Murano glass-makers could have created the Big with its sculptural quality interpreted in non-conventional forms. A delicate feeling given by softness that recalls drapes in some of the most valued finishes.

Shell

Spontanea emanazione dell'ambiente acquatico che circonda l'isola di Murano, Shell si distingue per la peculiarità e la ricercatezza delle lavorazioni. Il vetro viene plasmato per divenire forma evocativa, portando con sé un piccolo pezzo della magia veneziana.

Spontaneous emanation of the aquatic environment surrounding Murano island. Shell is distinguished by the peculiarity and the workmanship attention. The glass is shaped to become an evocative shape, bringing a touch of venetian magic.

Rouge

Calda ed avvolgente come il riverbero di un tramonto estivo che si specchia sulla laguna. Rouge richiama su di sè l'attenzione, per interpretare nell'atmosfera il ruolo di protagonista.

Warm and enchanting like the reflection of a summer sunset which is mirrored on the lagoon. Rouge draws the attention to itself, to perform the role of protagonist in the environment.

CONTENTS

Le caratteristiche di unicità degli oggetti Yalos Murano derivano dalla lavorazione e dalla produzione manuale del vetro.
È naturale pertanto che non sia possibile aggiungere o reintegrare oggetti in periodi successivi alla vendita senza che si manifestino differenze di colore, peso e decoro.
Infatti, la minima differenza fra la temperatura di fusione del vetro e quella dell’ambiente esterno durante le fasi di lavorazione può provocare nel prodotto finito variazioni sensibili. Alcune imperfezioni riportate sugli oggetti sono da considerare come pregi e non difetti dovuti alla manualità del prodotto.
L’azienda si impegna comunque a mantenere il maggior standard possibile relativamente alla qualità dei prodotti descritti nel catalogo.

The unique characteristics of the Yalos Murano objects are the result of the manual processing and the peculiar manufacture of the glass.
For this reason it is impossible to add or reintegrate any of the artistic glass pieces anytime following their purchase without noticing some remarkable discrepancies in colour, weight and decoration.
The least difference between the melting temperature of the glass and that of the external ambient during the production phase may in fact result in a sensible difference on the finished piece. Some imperfections on the items are considered values and not flaws given by the manuality of the product.
However the company engages in providing the highest possible standard with respect to the quality of the pieces as described in the catalogue.
