Zéro déforestation

Bien que les arbres soient récoltés, il n'y a aucune perte nette de forêt au fil du temps

Protection de l'environnement

La certification FSC exige que la biodiversité soit maintenue et que les zones de grande valeur de conservation – y compris les forêts anciennes – soient protégées

Droits des peuples autochtones respectés

La certification FSC exige que les habitants des forêts soient consultés et impliqués, et que leurs droits culturels soient maintenus

Salaire équitable et environnement de travail pour les travailleurs

La certification FSC exige une formation, la sécurité et des salaires décentes pour tous les travailleurs
